

Florida State University High School Dual Enrollment Common Course List

Updated 3/30/2026

Students who qualify for High School Dual Enrollment (HSDE) at FSU will choose from the courses listed under the “General Education” area on the [CoreFSU website](#). A course listed under CoreFSU does not constitute a promise of seat availability at the time of registration. Please note that course offerings also vary by semester, so check Schedule Assistant for availability in a given term. HSDE students may discuss other course options with their academic advisor, it is advised to select alternate courses in preparation for the registration meeting.

Dual enrollment students are non-degree seeking at FSU. While general education courses remain the foundation of dual enrollment coursework, approved upper-division courses in mathematics, computer science, and foreign languages may also be available.

Dual enrollment students may choose from courses that are available during their assigned registration window (Summer term=April; Fall term=August; Spring term=November) unless otherwise designated as excluded.

Dual enrollment students may not take the following types of courses designated as excluded:

1. Physical education, recreation, or leisure courses
2. Any course offered for fewer than 3 credits, graded on S/U basis, or offered as directed individual study (DIS)
3. Any course for which the student has not completed the prerequisite(s) established by the academic department
4. Any course for which a student has already earned or anticipates earning college credit (e.g., AP, IB, AICE, CLEP, or dual enrollment) or any course below a student’s current level of proficiency based on a placement test (e.g., math and modern languages)
5. Specialized admission, limited availability, honors, or major-restricted courses.
6. 4000-level courses
7. Online courses
8. Other specialized courses designated as excluded from course offerings by FSU or the Florida Department of Education and communicated to students and school counselors at the time of course registration
